

WRITING? NO PROBLEM!

Ketika sang anak dapat mengutarakan pemikirannya dengan jelas secara oral namun sulit menuliskannya,

berikut adalah tips dan trik yang dapat dicoba untuk melatih kemampuan ini:

1
Memberikan aktivitas mewarnai, menggunting, finger painting, tracing

2
Lihat kesiapan anak untuk memegang pensil

3
Ajarlah anak menangkap, melempar, menendang, membuat bentuk lingkaran dan bentuk sederhana lainnya

4
Dimulai dari sesuatu yang dapat menarik perhatian anak (nama sendiri, makanan, dll)

5
Menulis di berbagai media (laptop, pasir, cat, stiker, dll)

6
Pecahkan suatu tugas menjadi komponen yang lebih kecil dan bantu ia kerjakan dengan step-by-step

7
Latihan menulis dan mengidentifikasi kesalahan tulis bersama2 dengan anak

8
Gunakan papan tulis di rumah (untuk mengingatkan atau memberi pesan)

9
Melakukan kegiatan membedakan bentuk, ukuran, dan detailnya sehingga anak menyadari bagaimana cara menulis suatu bentuk

DID YOU KNOW?

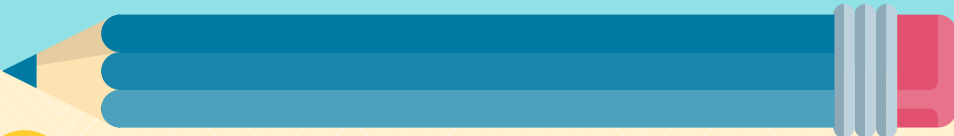

Kesulitan menulis dapat berkaitan dengan beberapa faktor: motorik halus, kesulitan visualisasi, bahkan kesulitan membaca dapat memberikan dampak terhadap kemampuan menulis sang anak.

WRITING? NO PROBLEM!

When the child is able to tell us orally about their ideas and thoughts but struggling to put in on paper,

these are some things we can do to enhance their writing skill:

1

Practicing activities to enhance fine motor skills: coloring, cutting shapes, finger painting, tracing

2

Prepare his/her readiness to hold a pencil

3

Teach the kid by doing other interactive activities: catching, throwing, kicking, and making a circle on the ground/sand

4

Start from something that interest your child (his/her own name, food, etc)

5

Write using various media (laptop, sand, paint, sticker)

6

Divide a work into smaller component (so it is less overwhelming) and help him/her to do it step by step

7

Practice writing and identify mistakes together, and ask him/her to repeat by him/herself

8

Use a message board at home (to write rules or messages for each other)

9

Activities to differentiate shapes and sizes including the details, so the child is aware of making shape while writinh

DID YOU KNOW?

Writing difficulties can be related to several factors, such as difficulties in fine motor skills and visualisation ability. It may also be impacted by reading difficulties.
